

Luana Gondim

UX/UI Designer | Product Designer | Ex-Architect

Lisboa, PT | gondimluana31@gmail.com | behance.net/luanaalmeida81 | linkedin.com/in/gondimluana31

SUMMARY

UX/UI Designer and Product Designer with 2 years of hands-on experience turning product needs and business goals into digital experiences that are intuitive, functional and visually consistent, plus 8+ years of systemic reasoning as an architect applied to building user-centered solutions. I'm fluent in Figma — Auto Layout, Variables, Prototyping and Design System organization — to run the full design process, from concept exploration to wireframes, user flows, mockups and high-fidelity interactive prototypes. I have a solid grasp of usability, accessibility and responsive design principles, and the ability to turn complex requirements into clear, intuitive, well-structured interfaces. I pair creative and conceptual thinking with a strong command of layout, typography, visual hierarchy and interface consistency. I collaborate naturally with product, engineering and other stakeholders, with good organization, attention to detail and a genuine drive to keep learning and improving.

HIGHLIGHTED EXPERIENCE

Co-founder & Product Designer | Paparico

Real project: www.paparico.pt and an internal management platform (SaaS)

Apr 2024 - Aug 2026

Landing Page & Conversion

Challenge: restructure the digital presence to increase trust and direct sales.

Process: I conducted recorded user interviews and surveys, plus journey mapping, to identify friction points; I built wireframes and interactive prototypes in Figma for validation before development.

Solution: a full redesign of the landing page focused on information architecture and social proof.

Result: a 15% increase in sales and direct conversions via WhatsApp, reducing pre-sale communication noise.

Internal Management Platform (SaaS)

Challenge: 4h/day of operational waste from manual order and invoicing processes.

Solution: owned Discovery, User Flow and Wireframing.

Result: automation of the business's logistics and administrative workflow.

Co-founder & Architect | Atelier Bossa

Architecture & Interior Design Studio

Jun 2019 - Dec 2025

Co-founded and led the studio's structure, coordinating residential and commercial projects from brief to delivery.

Managed complex timelines, budgets and multidisciplinary teams, always at the intersection of aesthetics and operational functionality. Built the foundation of systemic thinking and complex project management that I now apply to digital product design.

HARD SKILLS

UI/UX Design: Figma (Auto Layout, Variables, Prototyping, Component Creation), Wireframes, User Flows, Mockups, Interactive Prototypes, Design Thinking, Visual Design, Typography and Visual Hierarchy, Interface Consistency, Information Architecture, Usability and Accessibility, Responsive Design (Mobile & Web), Design Systems. Process & Ideation: Concept Exploration, Creative and Conceptual Thinking, Idea Generation, User-Centered Design, collaboration with Product, Engineering and Stakeholders teams. Research & Validation: Qualitative Research, User Interviews (recorded), Surveys, Usability Testing, Journey Mapping. Tools & Edge: Figma, Notion, Miro, Jira, Slack, Agile Methodologies (Scrum/Kanban), basic Front-end knowledge (HTML/CSS/JS), 8+ years of systemic reasoning and complex project management as an architect.

EDUCATION

Postgraduate — Web UX/UI Design

IADE - Universidade Europeia

Ongoing

UX/UI Designer - Professional Course

LSD - Lisbon School of Design

July 2026

Front-end Basics Short Course (HTML/CSS/JS)

DevArt

April 2026

Bootcamp UX/UI Design

Escola EDIT

Dec. 2025

Master's in Product & Space Design

Universidade Europeia

2018-2020

Bachelor's in Architecture & Urbanism

Universidade Potiguar

2013-2017
